

## [https:Install MySQL Community Server on WINDOWS](https://dev.mysql.com/downloads/)

1. Go to MYSQL downloads link: <https://dev.mysql.com/downloads/>
2. Click on “MySQL Community Server” link.
3. Select “Microsoft Windows” in the Operating System.
4. For **64-bit computers**, click on the ‘Download’ (blue) button, as shown below.

<b>Windows (x86, 64-bit), ZIP Archive</b>	8.0.27	209.4M	<a href="#">Download</a>
(mysql-8.0.27-winx64.zip)		MD5: 9d8e7f9f8835d8b512c5f8e9182d9a6a   <a href="#">Signature</a>	

5. For **32-bit computers**, click on the blue ‘Go to Downloads Page>’, as shown below:

The banner for the MySQL Installer for Windows. It features the text 'MySQL Installer for Windows' in a large, bold font. Below it, it says 'All MySQL Products. For All Windows Platforms. In One Package.' There is a small graphic of the Windows logo on the right. At the bottom, it says 'Starting with MySQL 5.6 the MySQL Installer package replaces the standalone MSI packages.' Below the banner, there is a table with two rows. The first row is 'Windows (x86, 32 & 64-bit), MySQL Installer MSI' and the second row is 'Go to Download Page >'. The 'Go to Download Page >' button is blue with white text.

<b>Windows (x86, 32 &amp; 64-bit), MySQL Installer MSI</b>	<a href="#">Go to Download Page &gt;</a>
--	--

6. A new page will open, you would see two options. Either of these is fine. If I must choose one, I will go with the following option.

<b>Windows (x86, 32-bit), MSI Installer</b>	8.0.27	2.3M	<a href="#">Download</a>
(mysql-installer-web-community-8.0.27.1.msi)		MD5: 44b7f3e4c1bdcc641621cfaa31ea18f4   <a href="#">Signature</a>	

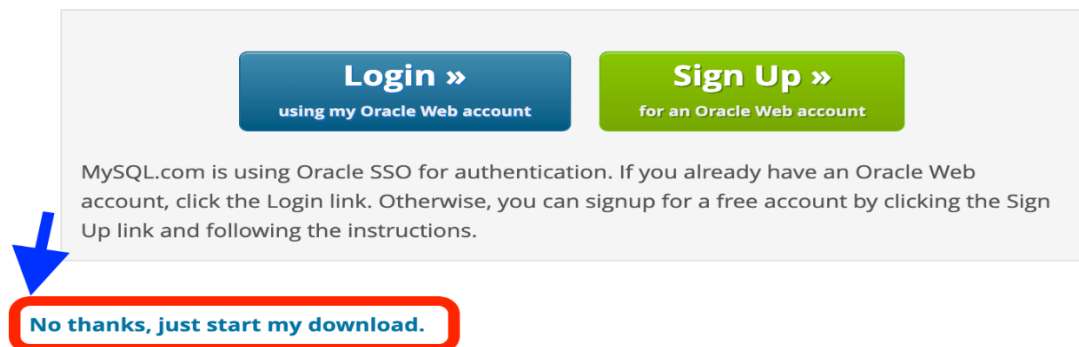

7. Click on the above ‘Download’ button.

8. You will see this. Go to 'No thanks, just start my download' as shown below:

Login Now or Sign Up for a free account.

An Oracle Web Account provides you with the following advantages:

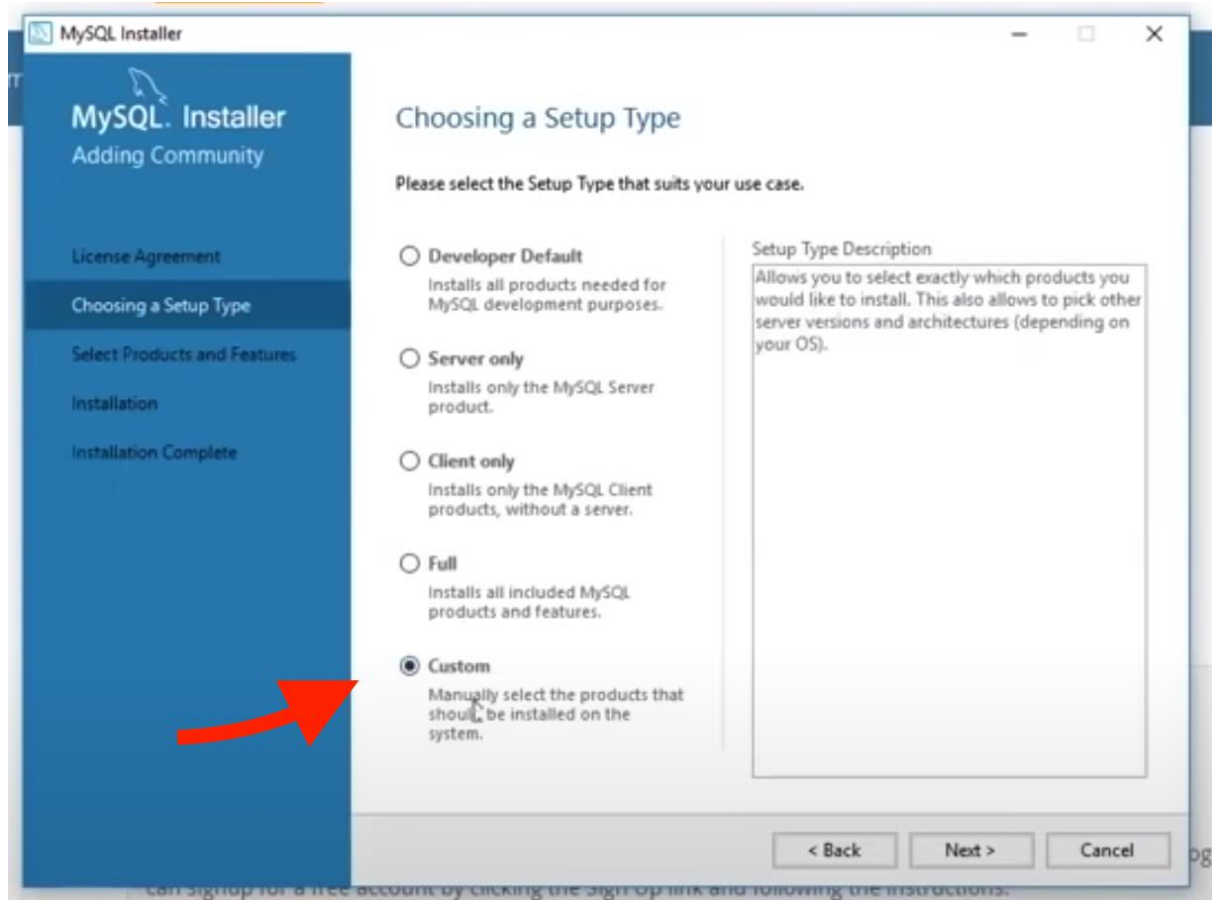

- Fast access to MySQL software downloads
- Download technical White Papers and Presentations
- Post messages in the MySQL Discussion Forums
- Report and track bugs in the MySQL bug system

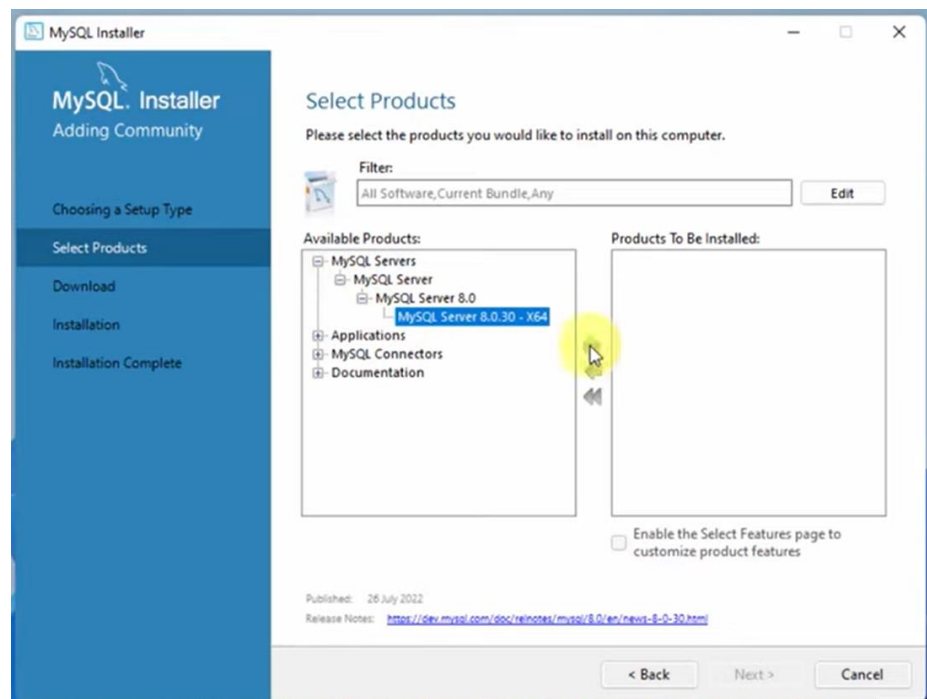

9. It will download the file.

10. Double click the file and **start** the installation process.

11. When you come at ... 'Choose a setup type' select **Custom**

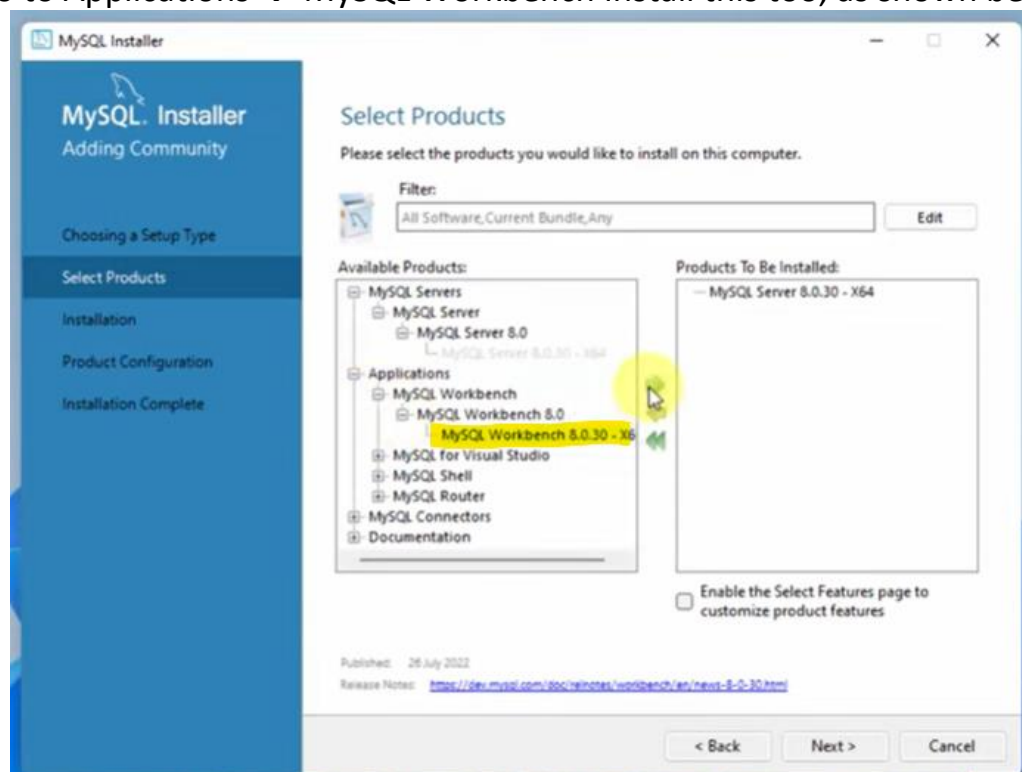

12. You will now be able to select what products you would want to install.
13. Click on MySQL Server – **Keep** on expanding and it will tell you the **latest version**. Drag this to the right-hand side for installing this.

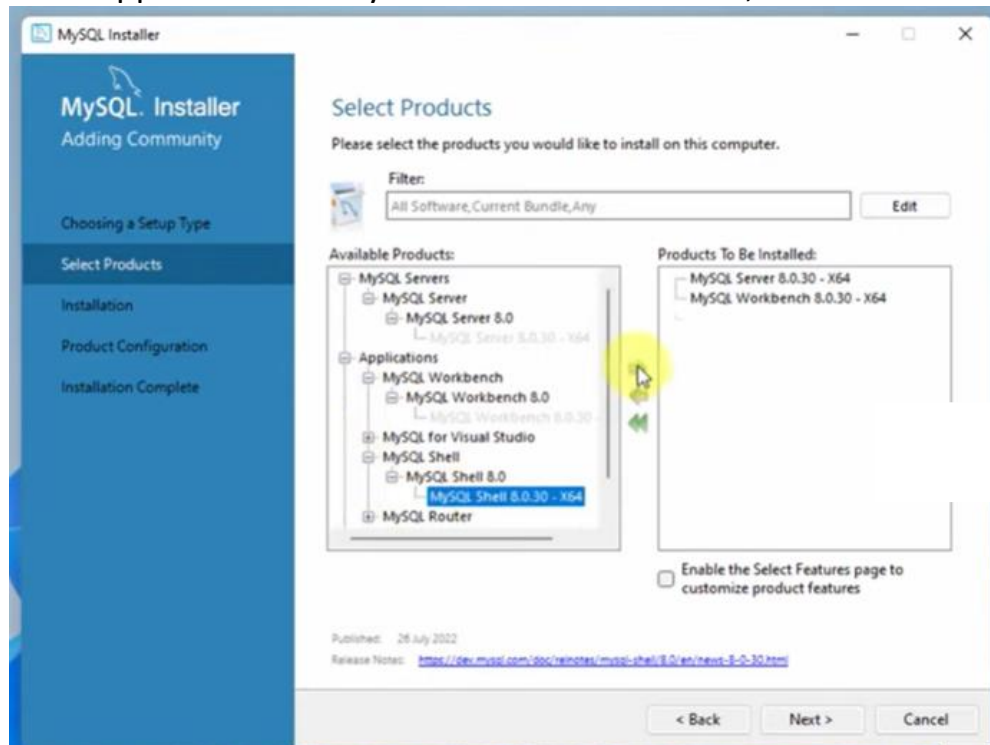

**NOTE** – In the above image, it's an old screenshot and hence it's showing MySQL Server 8.0.30. You might have the latest version.

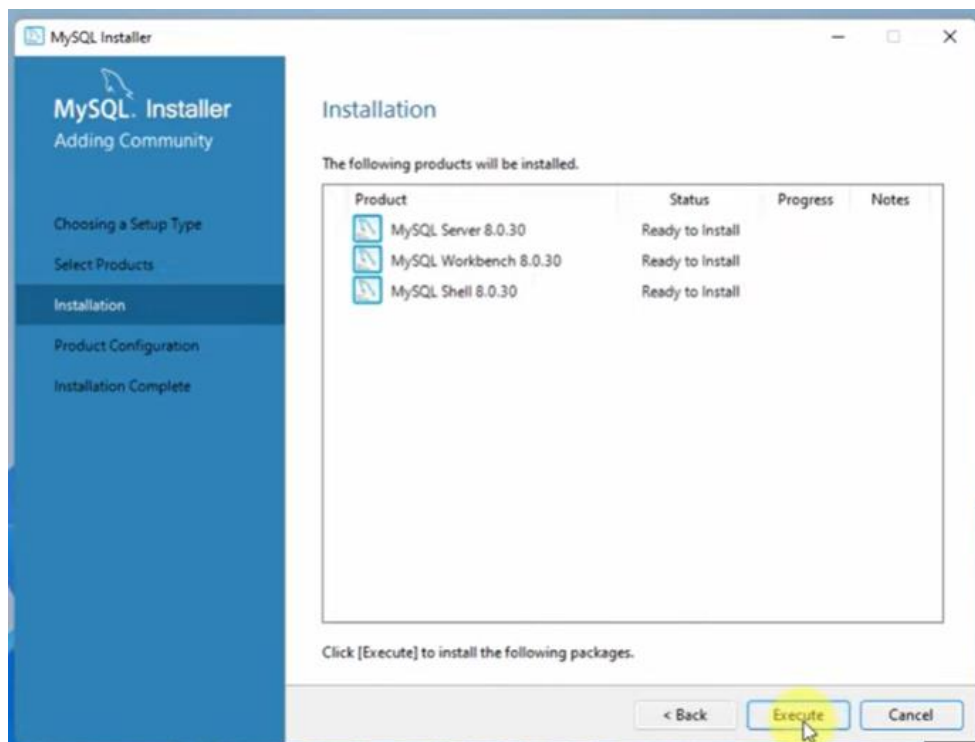

14. Go to Applications → MySQL Workbench. Install this too, as shown below:

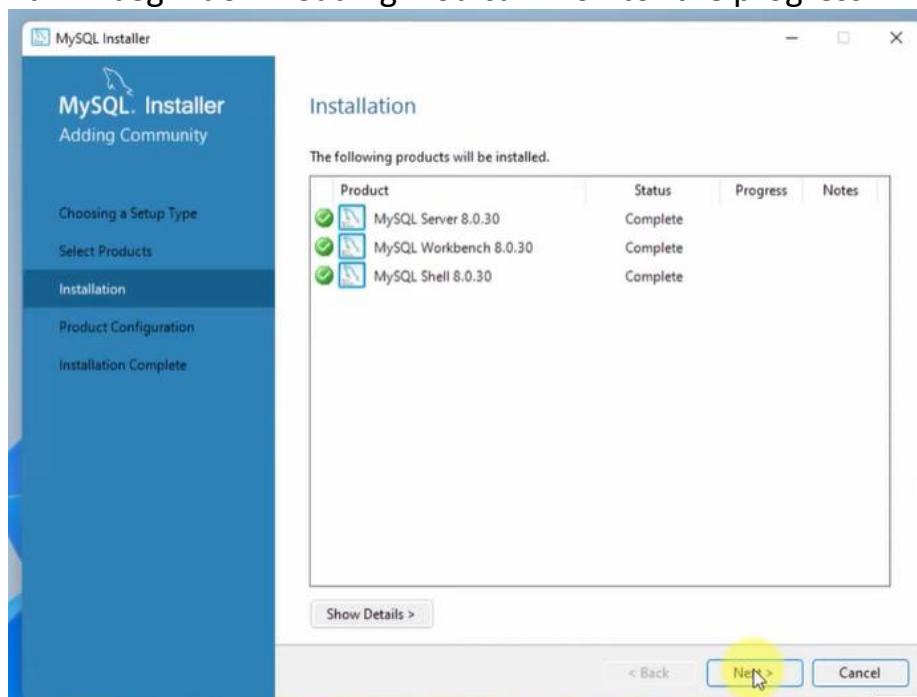

15. Go to Applications → MySQL Shell Install this too, as shown below:

16. We will be downloading the above three options (MySQL Server + MySQL Workbench + MySQL shell). Click on **Execute** button, as shown here:

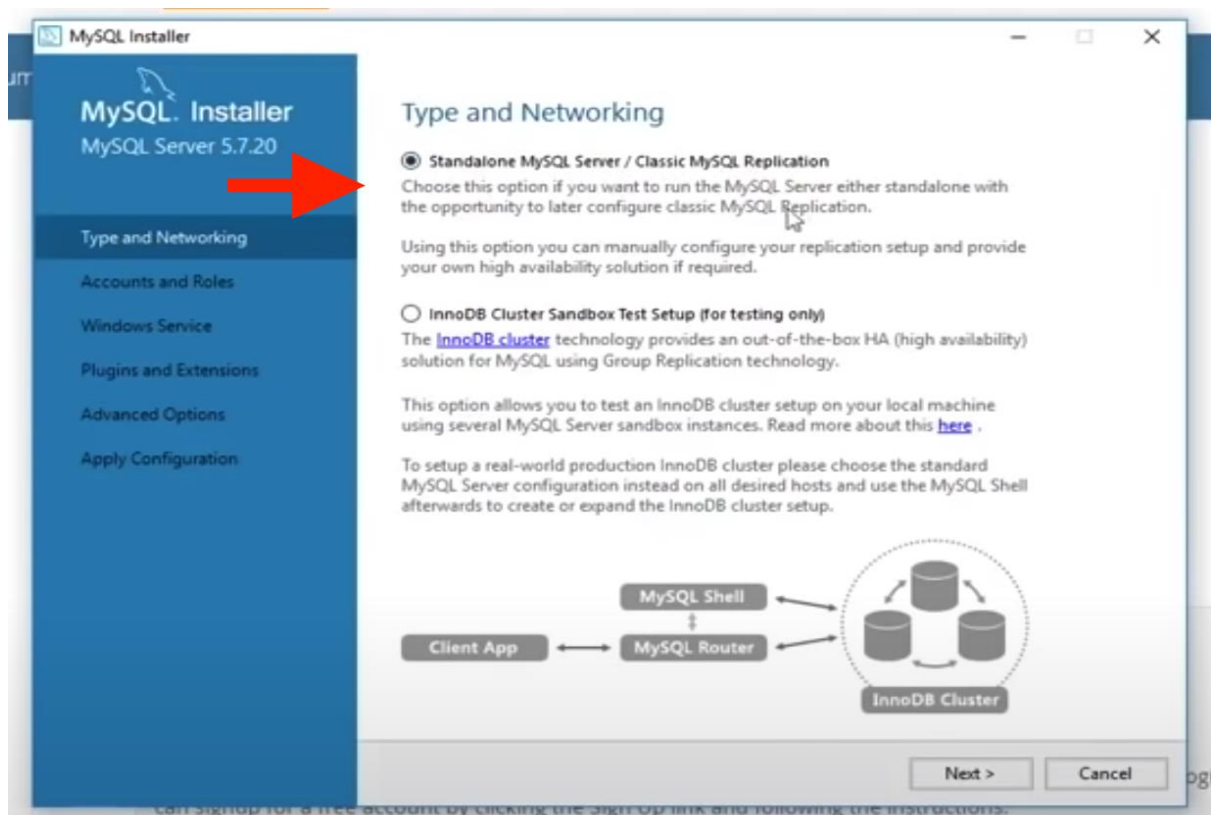

17. It will begin downloading. You can monitor the progress:

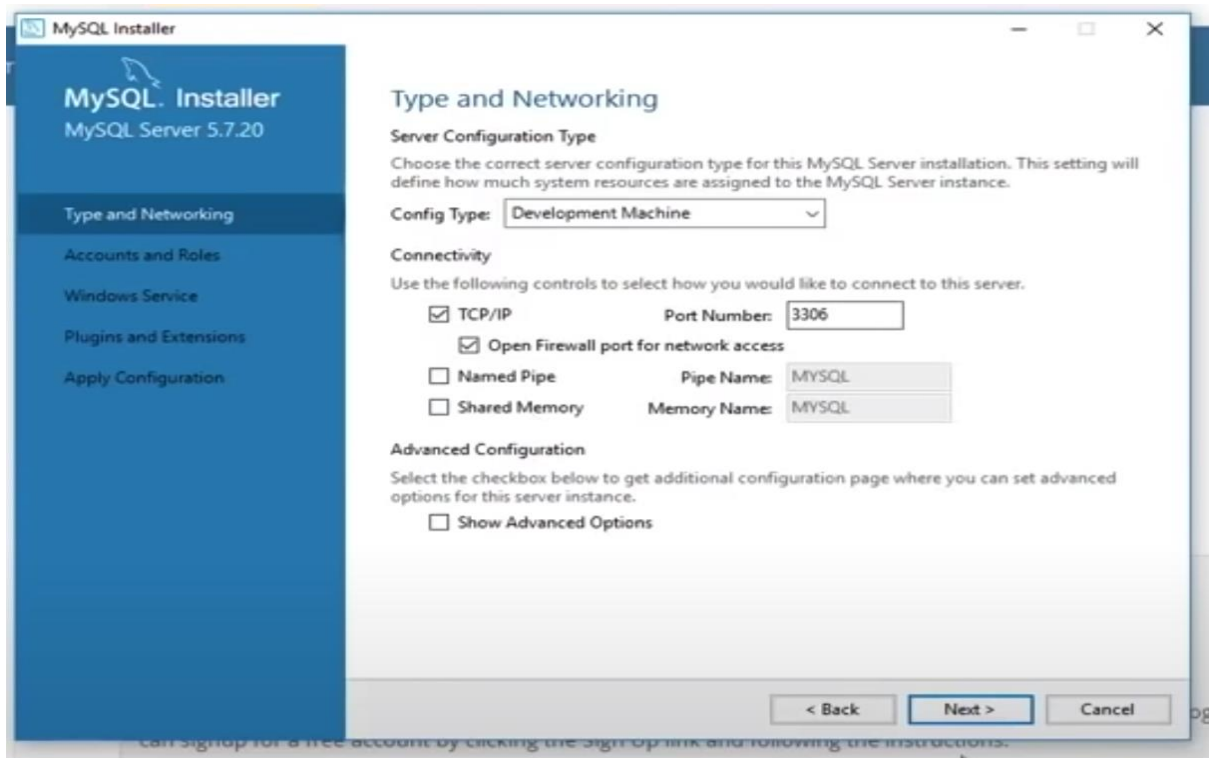

18. Click 'Next'.

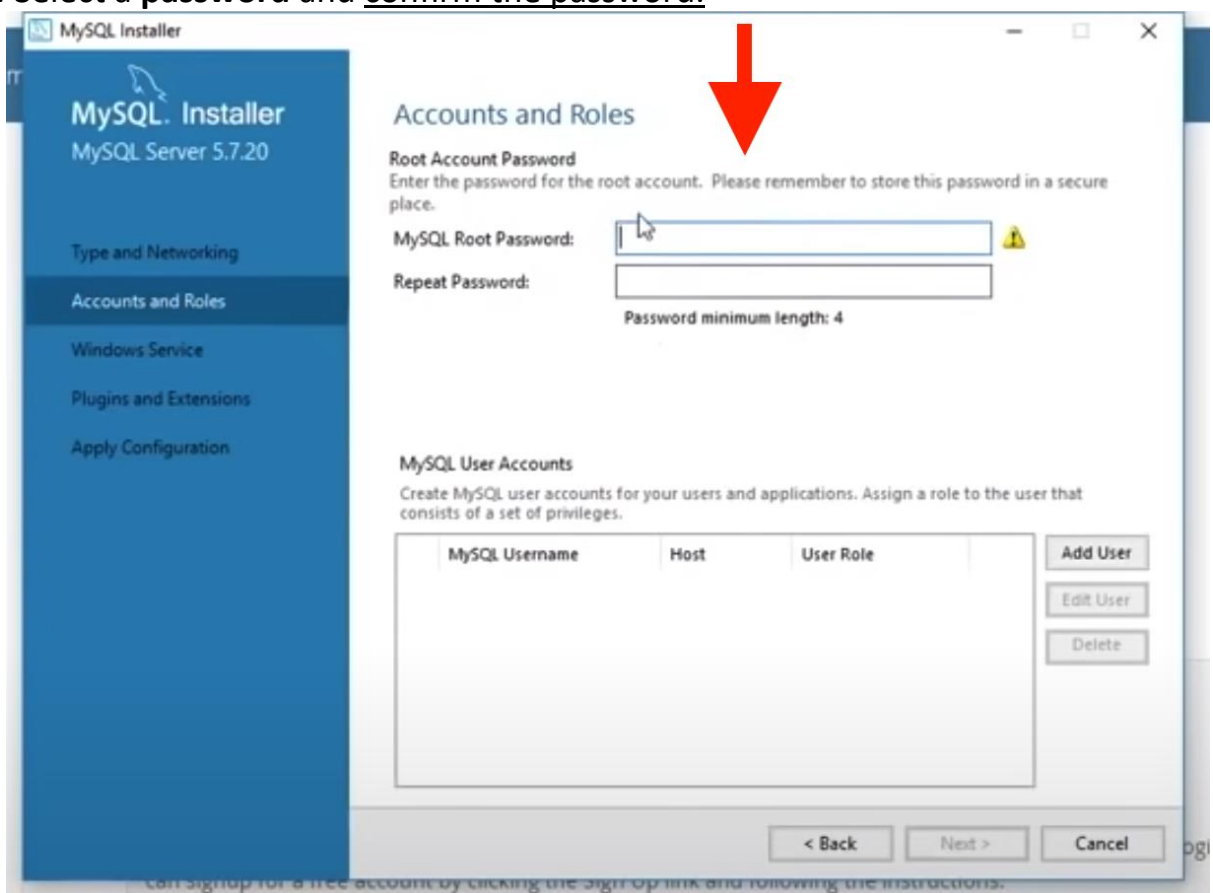

19. On 'Type and Networking' page, choose 'Standalone MySQL server' option, and click 'Next'.

20. Don't change anything on this page. Just click 'Next'.

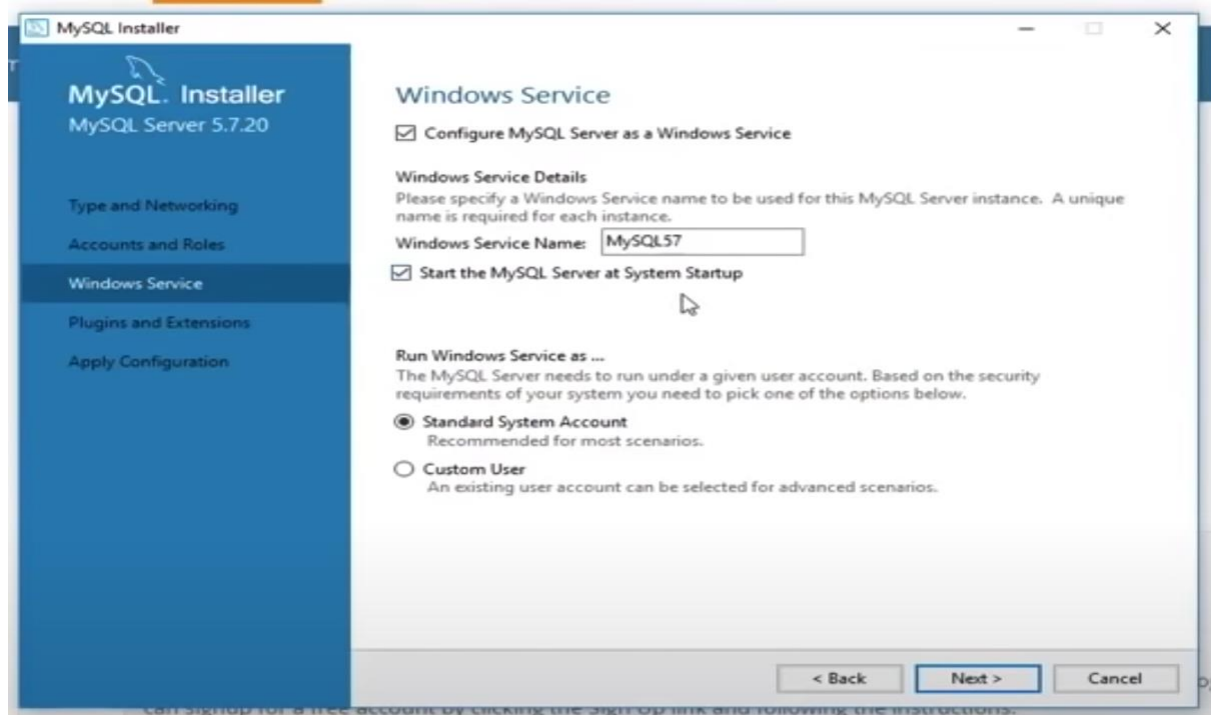

21. Select a **password** and confirm the password.

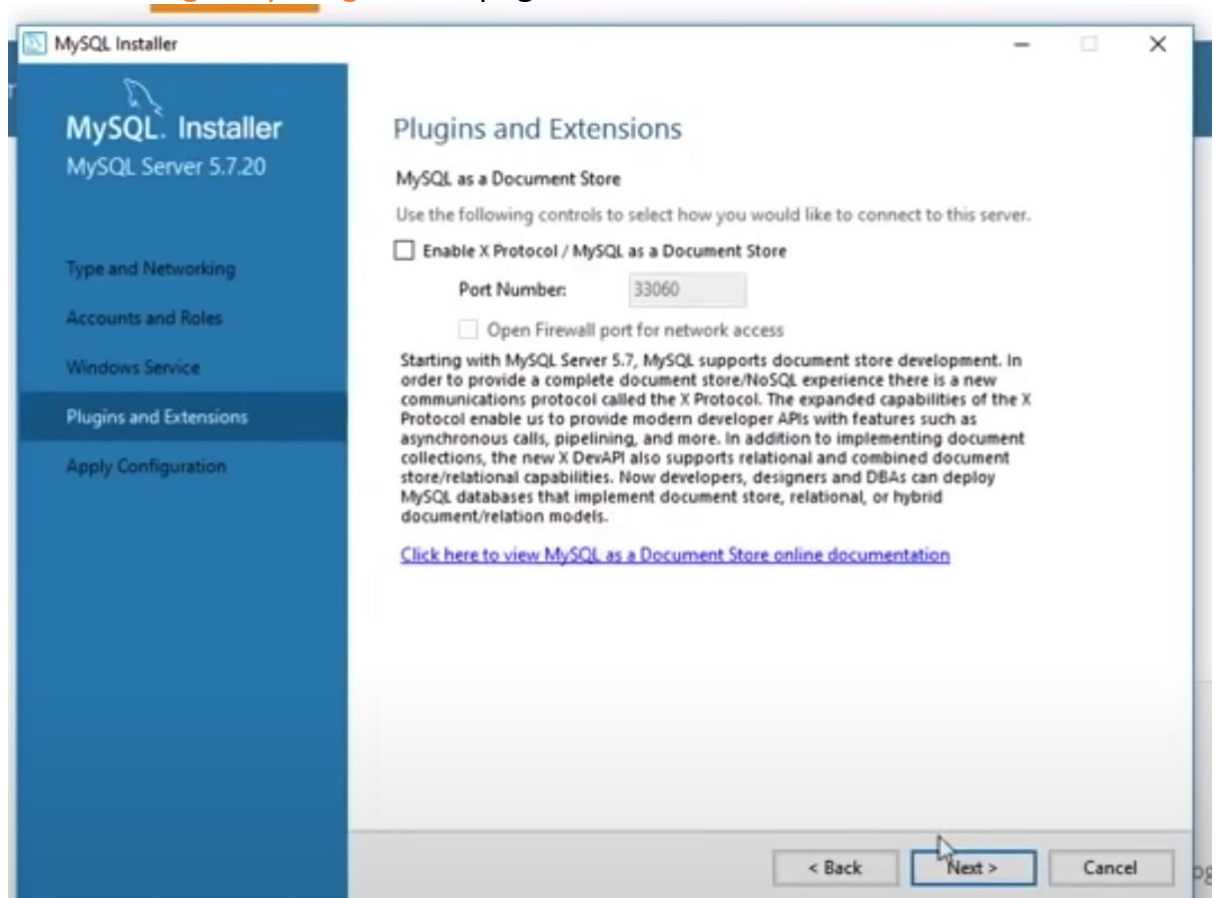

22. Make sure you remember this password as we will use it later. Kindly note down the password somewhere.

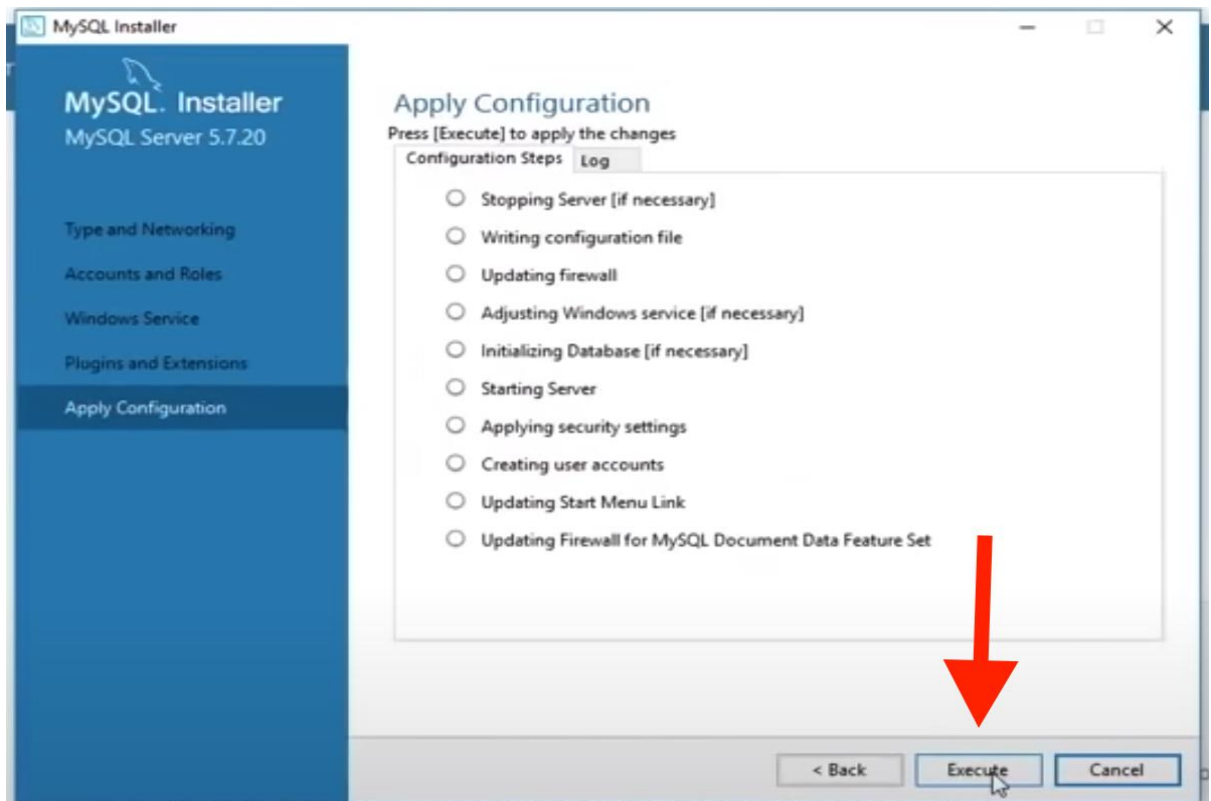

23. Don't change anything on this page. Just click 'Next'.

24. Don't change anything on this page. Just click 'Next'.

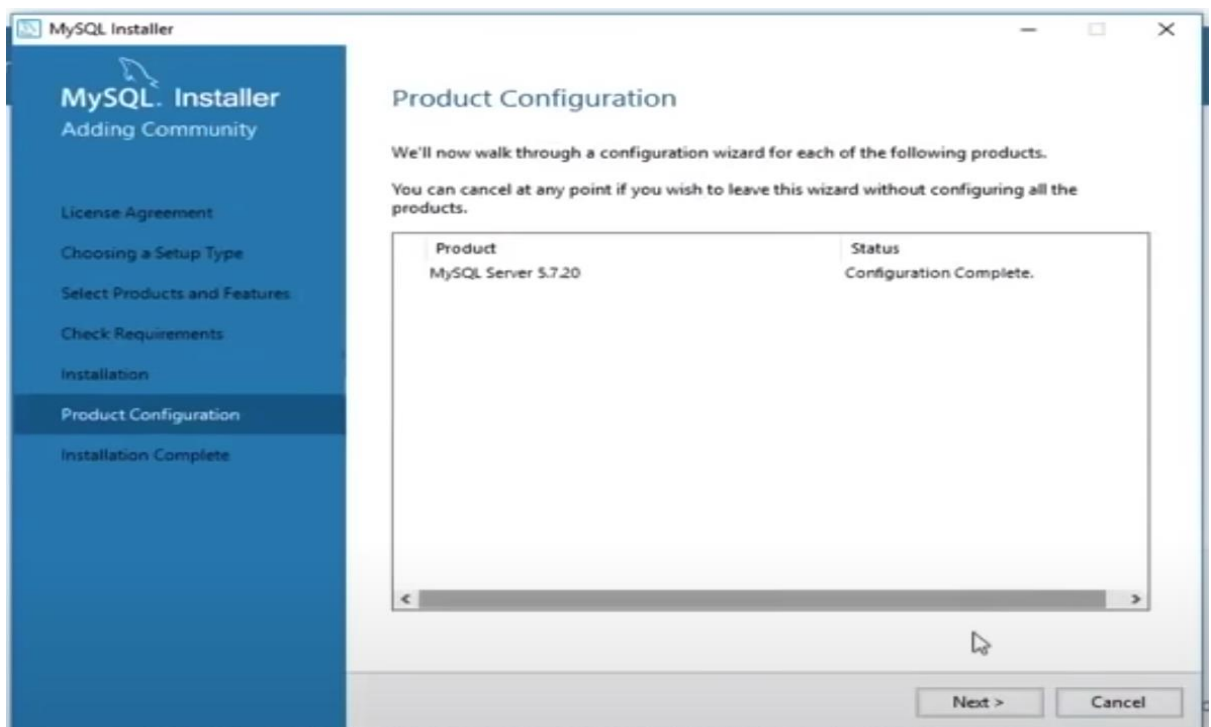

25. Click on 'Execute'

26. The above will do a bunch of stuff that we need to do to get this set up.

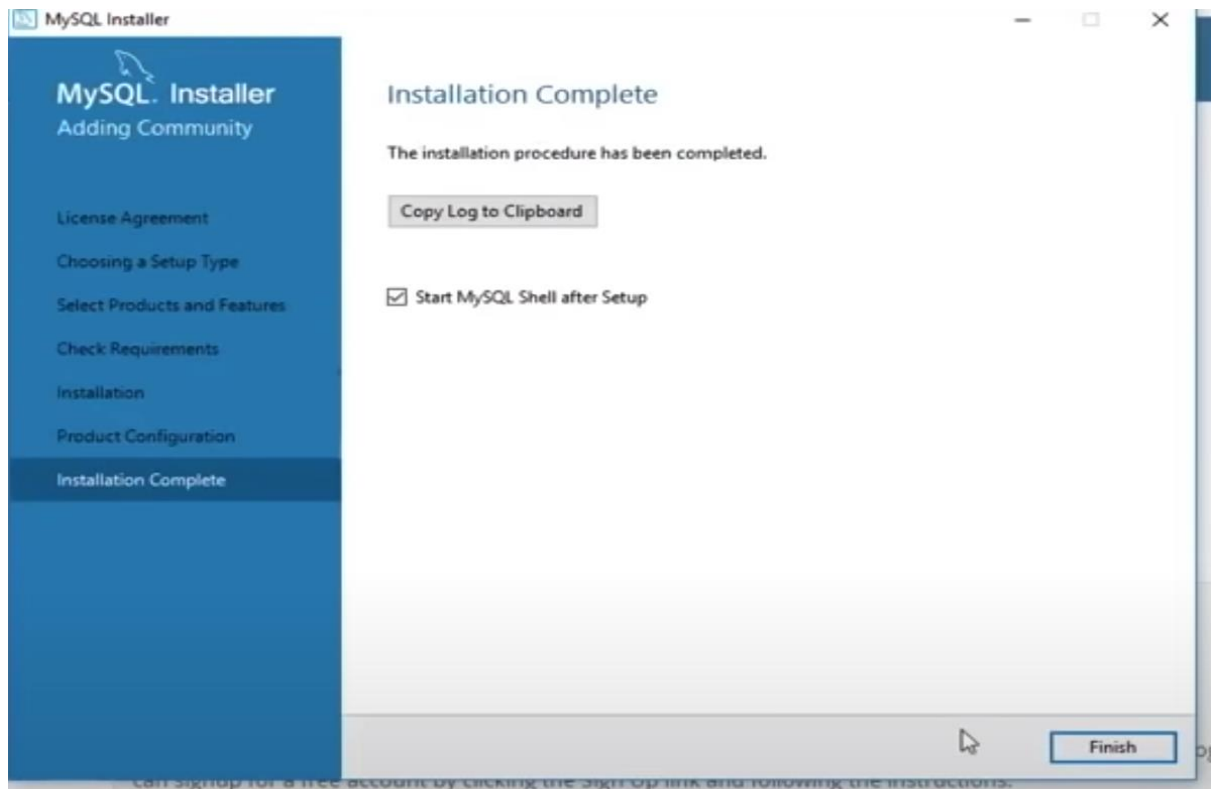

27. We are almost done. Click **Finish**.

28. Product Configuration: Click 'Next'.

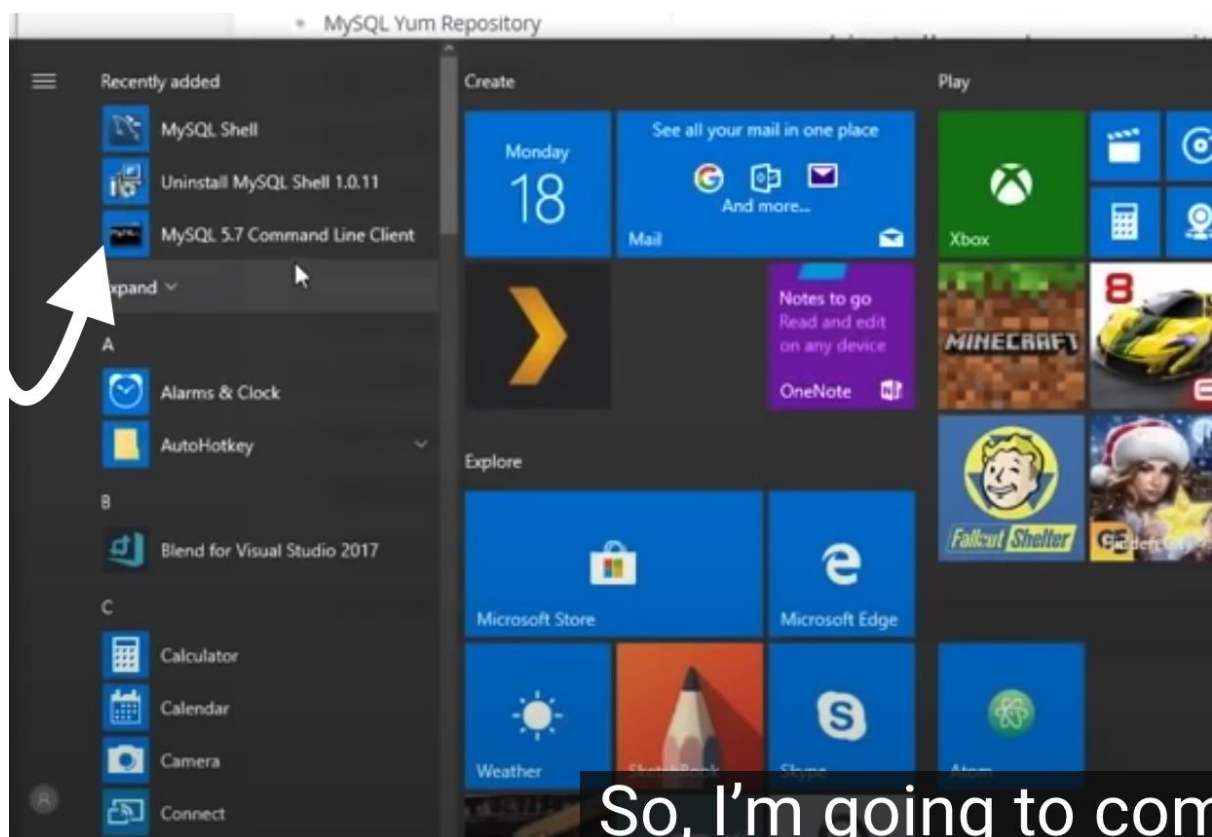

29. Installation is complete. Click '**Finish**'.

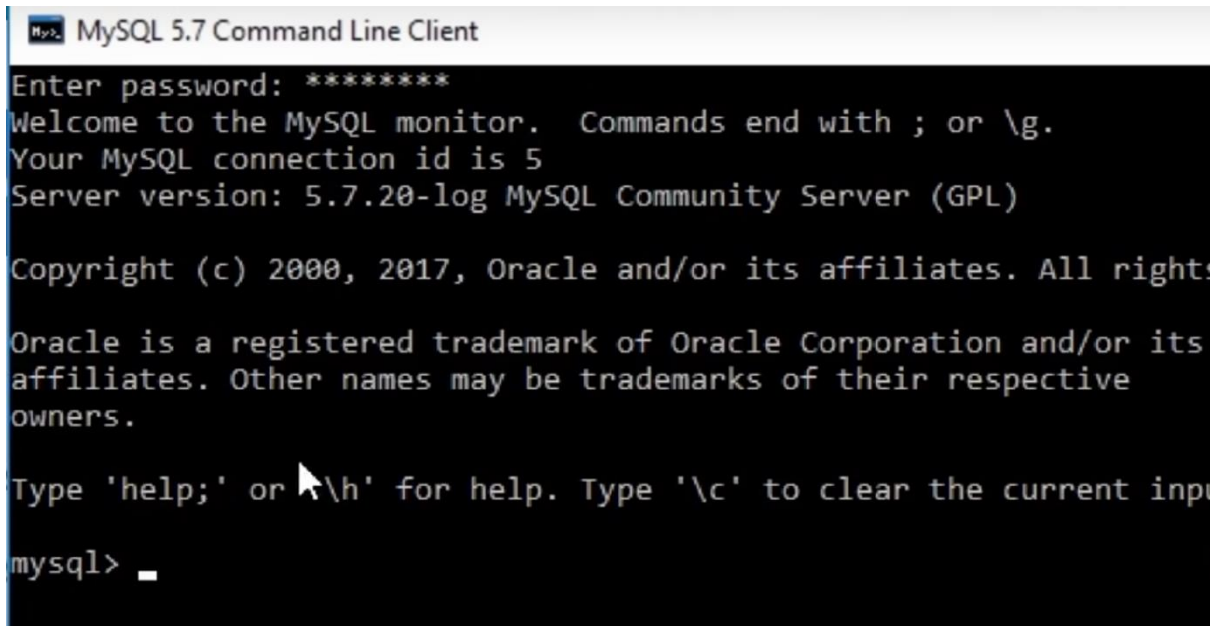

30. **Running** the program. Click on 'Windows' key (on the keyboard) and choose the **Command Line Client**.  
Kindly ignore the version number here.

31. This will open a command line window and will prompt you to enter the password. **Please enter the password you had set up on point 20.**

32. After entering the correct password, you will see this screen:

A screenshot of a terminal window titled "MySQL 5.7 Command Line Client". The window has a black background with white text. The text displayed is: "Enter password: \*\*\*\*\*", "Welcome to the MySQL monitor. Commands end with ; or \g.", "Your MySQL connection id is 5", "Server version: 5.7.20-log MySQL Community Server (GPL)", "Copyright (c) 2000, 2017, Oracle and/or its affiliates. All rights reserved.", "Oracle is a registered trademark of Oracle Corporation and/or its affiliates. Other names may be trademarks of their respective owners.", "Type 'help;' or '\h' for help. Type '\c' to clear the current input statement.", and "mysql> \_".

```
MySQL 5.7 Command Line Client
Enter password: *****
Welcome to the MySQL monitor.  Commands end with ; or \g.
Your MySQL connection id is 5
Server version: 5.7.20-log MySQL Community Server (GPL)

Copyright (c) 2000, 2017, Oracle and/or its affiliates. All rights reserved.

Oracle is a registered trademark of Oracle Corporation and/or its
affiliates. Other names may be trademarks of their respective
owners.

Type 'help;' or '\h' for help. Type '\c' to clear the current input statement.

mysql> _
```

33. Now, we are connected to the MySQL server that is running on our computer.

34. ALL DONE!! 😊
